

Welcome to the Hauts-de-France Technical Textiles Region !

Join the delegation of companies, education centers, institutes and labs and
get an insight on technical textiles and materials
in the Hauts-de-France Region !

Further to webinar talks, guided tour on the HDF pavilion at Techtextil show in Frankfurt and the visit of ITA premises and companies in NRW, here is the scheduled agenda for March 22nd and 23rd in Hauts-de-France :

Programm

Wednesday, March 22nd 2023

2:00 pm – welcome of the delegation at CLUBTEX & EuraMaterials

2:15 pm – **presentation of CETI Transformative Textile, CLUBTEX and EuraMaterials**

3:15 pm – **visit of CETI premises then transfer to PEIGNAGE DUMORTIER and then to UTTI, located in Tourcoing**

6:30 pm – arrival at the hotel

7:30 pm – **networking dinner in Roubaix or in Lille**

Thursday, March 23rd

8:30 am – **welcome to the Technology Day**

9:00 am – Morning session 1 of the Technology Day

10:30 am – coffee break

11:00 am – morning session 2 of the Technology Day

12:30 am – **networking lunch**

2:00 pm – **BtoB meetings between the members of the delegation and the participants of the Technology Day**

5:00 pm – end of the Technology Day and of the mission

CETI Transformative Textiles is a private applied research and innovation centre for a sustainable textile industry. The technical platform will show its tri-component spinning pilot line, its 100-combinaison nonwoven lines (meltblown, spunbond, needlepunched, airlaid) and its line dedicated to recycling materials.

PEIGNAGE DUMORTIER is a reference company in carding and combing of natural fibres as well as in the conversion of synthetic and artificial fibres.

UTTI is a spinner and dyer for industrial and technical weaving and knitting

CLUBTEX is the business network of the technical textiles companies, education centers and institutes.

EuraMaterials is the reference innovation cluster in Northern Europe for the materials processing industry.

IFTH is the Industrial Technical Centre (CTI) for Textile and Clothing in France, created around a mission of general interest: the scientific and technical development of the fashion and textile sectors, including technical sectors

Welcome to the Hauts-de-France Technical Textiles Region !

The 55th Technology Day

is a whole-day conference which will deal with **Textiles** and **Materials** for **Water**, which is a major global issue. How to harvest, store, transport, treat, save, use as a source of energy, and protect against its sometimes devastating effects? These are some of the topics that will be discussed on this occasion. This conference is organised by CLUBTEX in partnership with EuraMaterials and ENSAIT. This event usually gathers 60 to 120 people (R&D, CEO, Marketing and Technical Professionals from the textile and materials industries and from the applications industries) for up-to-date information and networking.

If you wish to give a lecture on one of these subjects, please contact Karine Wallois karine.wallois@clubtex.com

In parallel to the afternoon sessions, **BtoB meetings** will be organized between the members of the delegation, the participants of the Conference and the companies from Hauts-de-France/Belgium.

Therefore, we kindly ask you to describe your company / activities in a few words and precise what kind of partner you are looking for.

The **networking dinner** should give you the opportunity to meet members of the delegation and also representatives from the Hauts-de-France. Each participant will pay for his/her attendance. The place will be confirmed later.

Let's meet and discover each other !
